Why so serious?

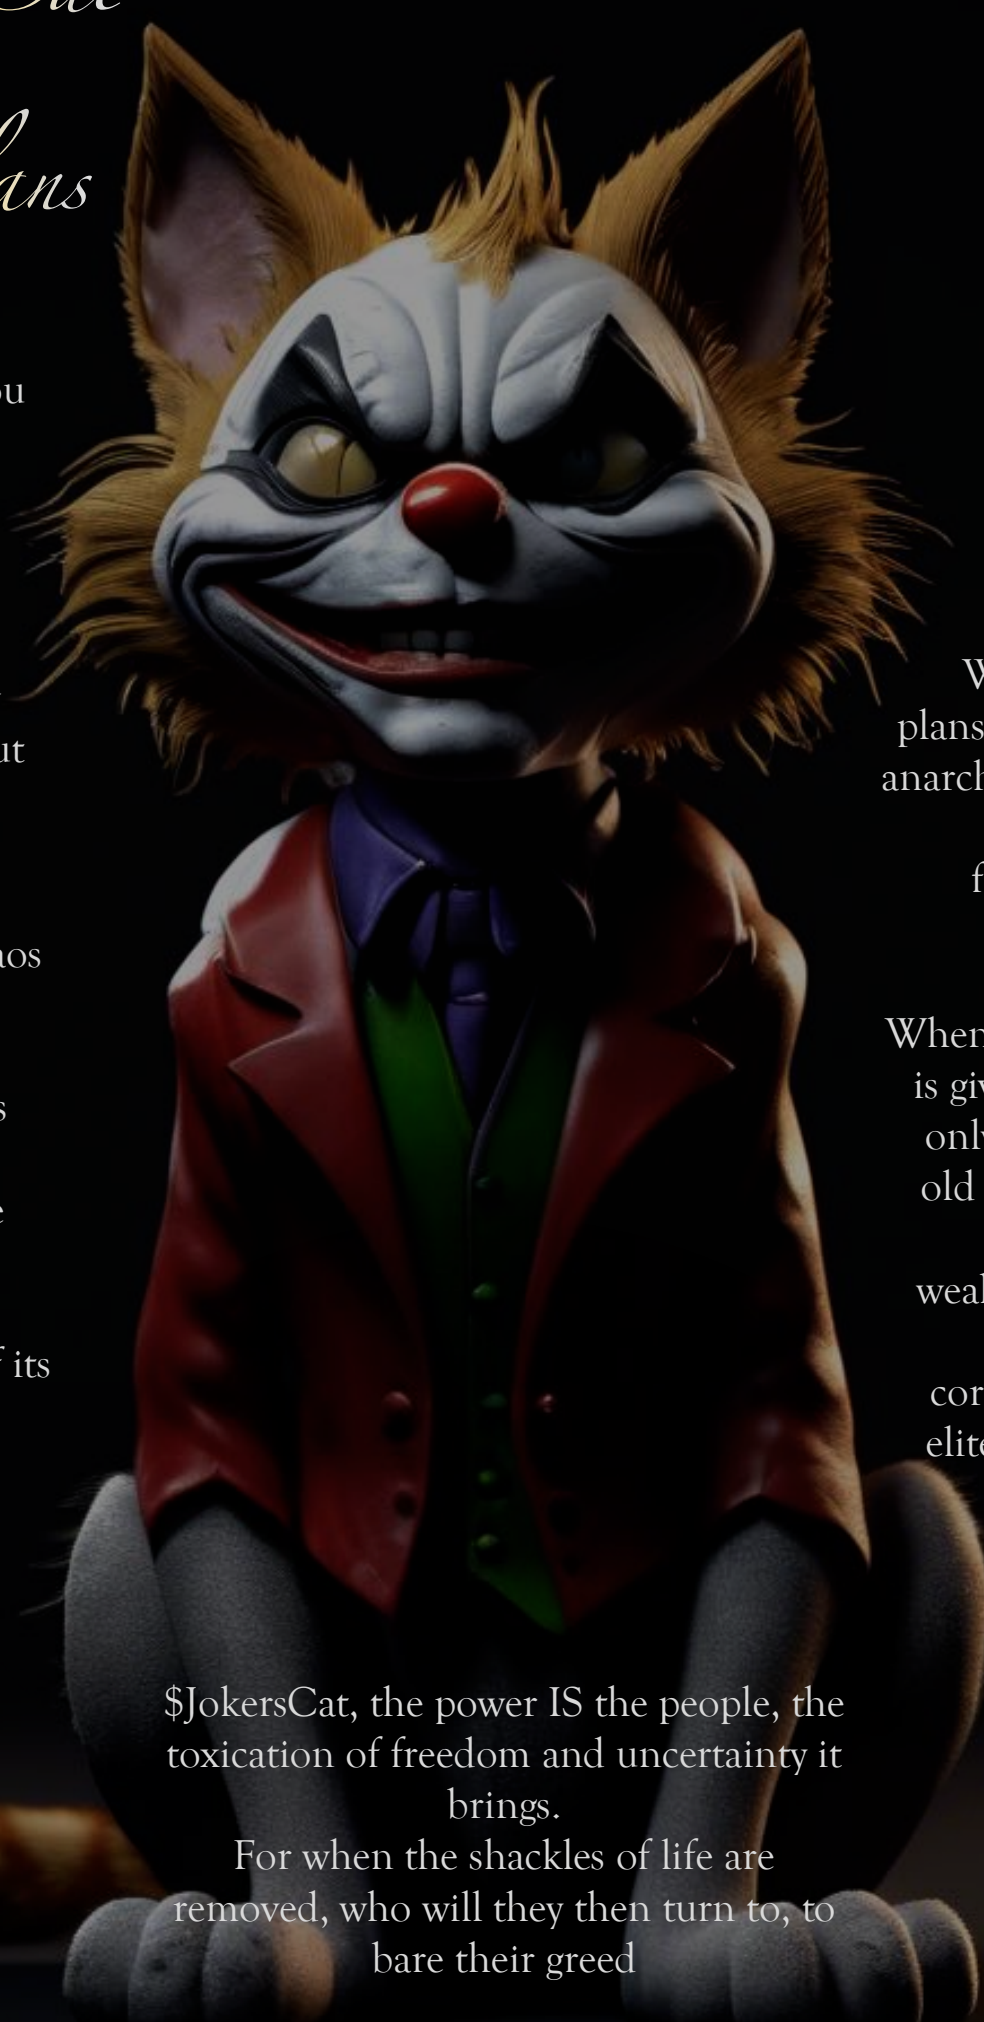

\$JokersCat

Evil Plans

Truly the only thing we offer you is chaos but not how you might think.

We may be the mastermind pointing the way for the masses but the rest is up to you.

We thrive in mayhem and chaos but rug pulls, pitiful, weak minded rug pulls are shallow, stealing from the shrimps, the common man, life's survivors of its twisted joke is beneath us.

We have bigger plans in mind, true anarchy comes from the financial freedom of the laymen, the common folk. When true freedom is given, then, and only then will the old ways crumble, the untitled weakened and the traditional corruption of the elite show to bare our wrath.

\$JokersCat, the power IS the people, the toxication of freedom and uncertainty it brings.

For when the shackles of life are removed, who will they then turn to, to bare their greed
